

Journalism/The Channels

Anthony Zell

Submitted by Darleen Principe

Anthony Zell has been an invaluable member of The Channels since fall 2023. Although he had already completed an associate degree in kinesiology, his passion for sports and the camera steered him to further explore photography and photojournalism. As a Channels staff photographer, he won awards for his coverage of sports and features, covered news and arts & entertainment, and also produced video. This spring he returned as photo editor, allowing him to further expand his skills into illustrations. Earlier this year Anthony and his family suffered a devastating house fire. Yet he remained steadfast and committed to his studies, all the while working and helping take care of his younger siblings. He is truly deserving of this recognition.
